22:34:35.00 It is the policy that the marine corps is pursuing. Still, some women are clearly ready: 13 female marines have just passed the grueling 60-day infantry training course. But this postponement is a setback for the plan to move thousands of women into combat roles by 2016. The marines could impose the 3 pull-up standard next year, but there's no guarantee. So let's dream for a moment about halcyon days floating on calm waters in your own private boat someplace warm. Lot of that going on at the new york **boat show**. Tomorrow is the last day of this four-day event at the javits center. It features everything from yachts and cruisers to bass and pontoon boats, canoes and kayaks. 09:43:04.00 More of the great snow pictures you have been sending us. We have received hundreds of them including a father and son on shoveling duty digging out from all of that snow. They look great. And thanks for sending the photo in. Meanwhile the wind chill was so cold, it turned this beach, this bench, rather, into an ice cube. It should be the beach. And Anthony Rhino wearing a swimsuit instead of a winter coat. I'm cold just looking at it. And took a dive in the snow in New Rochelle. Crazy. And send your photos and videos to [cbs-newyork.com](http://cbs-newyork.com). Facebook [facebook.com/cbsnewyork](http://facebook.com/cbsnewyork), or tweet us at [cbsnewyork](http://cbsnewyork). I guess he gets the blood moving. Maybe. I don't know. It is so cold today, that even the snowmen need a shawl. But if you're dreaming of summer, no better place to spend your Saturday than at the **boat show**. Emily Smith shows us what is new. It is a summer paradise inside the Javits Center with the most advanced wave runners and tugboats and yachts and everything in between. A few years ago, it was zodiac boats and pontoons and now it seems like the jet boats are back in. Here is a first of its kind. A line of \$35,000 miniature jet boats designed for generation and they came up on jet skis and jet technology and they like it. Here I'm standing on the swim platform of a 35-foot yacht and what is unique about this boat and what boaters look at in 2014, is the grill facing the beach. And then buyers get to spin the giant wheel for a prize which could result in taking home a free boat. Here is the queen of the show. It is a 51-foot yacht. In the salon, there is a minibar. Complete with a flat screen TV. And it also has top of the line navigation. Allowing you to dock without error. What is really interesting is this right here, this is a joy stick. So a lot of people are fearing docking a boat. It is like a car that parallel parks itself. Or a kid with a video game. And you have a sky float design with extravagantly high ceilings and a leather sectional sofa next to a full kitchen and two bedrooms. This is around 1.5. Like a Manhattan apartment. And you can go different places, too. You can get out of Dodge. And how about a wave runner with beefed up engines zero to 30 in less than two seconds. The fastest accelerating water craft on the market and all of the brands top out at a certain speed limit. Finally, the latest in boating doesn't excite you? Down the hall, the Swamp Masters show. And whether planning your summer on the water, or just looking, the show promises fun for all. In Manhattan, Emily Smith, CBS 2 News. And the New York **boat show** is in the 109th year and it makes it the oldest **boat show** in the world. And I think a lot of kids want to go to the show. And what can I find there? Yes. And let's head over to meteorologist John Marshal taking a look at the cold temperatures

04:03:43.00 Get the lines lit up. Knicks fall short tonight in houston. Good evening, i am kevin garity. And happy new year. Welcome to sports on one. First friday night show of the 2014 season as it may be with the **sports show** moving forward. Well call it a season. The knicks season of course, has gotten off to a disaster of a slow start along with the brooklyn nets and some hope last night. The knicks coming off a tremendous win in san antonio and looking for the teixeira two- step as they played the rockets in houston tonight. A huge win for the knicks over the spurs. One it brought an end to the three- game losing streak and it was a win over a quality team. The spurs went into last nights game with 25 wins on the season. It is a confidence booster for the knicks if they can beat the rockets tonight. Houston coming in with a nice 21- 13 record when the night began. The knicks a bad history with the houston. Losing. Well show you what happened. Iman shumpert had twep points last night, tonight he was dishing early and nice move. Drew two defenders and that left wide open bargnani. In the early going, and then shumpert, getting the confidence from the jump shot, with three ball there and he would be perfect from three tonight. That give the knicks a one- point lead and carmelo anthony, the jumper and the knicks were up four after the first quarter. And second quarter. Jeremy lingot the start for houston drive to the hoop and foul and houston up by five. And james hardin, an 8- 0 run for the rockets. And here comes the knicks. Shumpert, wide open on the wing, he is going to bury the three to make it 41- 38, houston. And then anthony, will pull up a three, wide open and lets hardin go by and tying the game hardin is such a good player and can do so many things including pull up and drops the three and houston up by one. And now off to jr smith, miss here and bargnani, quick rebound and short jumper, and the knicks go up by one and trail by one at the half. And third quarter, check out melo starts to hit the shots and grimacing, that left ankle coming down on it and every time he did, the grimace was getting worse so it seemed. Melo playing through it. And see him jogging up slowly as the ankle starts acting up. And melo tough move, and works hard to get the hoop, and pumps hiss if, sort of like jeremy lindid on the lay up and found. And lin, did not get the technical and melo did. And in looking at the replay, he was fouled on that first drive to the hoop. But said it a million times on the show, he is a super star who doesnt get the call. Shumperts three there and late in the third and knicks up 81- 73 going into the fourth quarter. Dwight howard, a quiet night for him. But the baby hook put the rockets up twochl and hardin with a three and game tied at 95 and 3 minutes to go and putting houston up by three. And pretty fall away, over melo and how fast up by five and it looks like the knicks are going to be history. And shumpert hits the sixth three of the night as udrih misses and houston hits two free throws and go up by two, and the last sequence. Melo giving the ball up there and in the lane and could have taken an eight footer and more passing and ends up in udrihs hand and that is not the guy to take the shot. Melo gives it up here and shumpert misses a jumper and here is where melo should have taken. Dont pass out to udrih. You are getting paid gazillions of dollars and you dont want a third string back up ponent guard taking the shot. Should have been shumpert or smith or melo. And the knicks lose. Melo 25 points and eight rebounds and give him credit for gutting it back after the ankle was bothering him in back-to-back games, but still, excuse me, he has to take that shot when he dribbled in to the leap. Other numbers. Shumpert 20 last night and 26 tonight. Perfect 6- 6 from behind the three- point arc. Great game for him. Channel eight. And jr smith. 3- 13 Shooting. What kind of player is james hardin? Ten of 19 from the field and 12- 12 from the free throw line. Then points and seven rebounds and six assists, just a great player, chandler, 17 points and 11 rebounds. Jeremy linstarted the game and didnt play a lot down the stretch. 28 Minutes and 5- 11 and 14 points and four assists. And so, what do you take out of this game? Knick fans certainly want to hear from you as we go forward in the hour. What i take out of it, coming off of a good win over the spurs, they didnt fall on their face. They looked good and they gave you a feeling of the second half they were going to win the game and couple of bad plays down the stretch and lose the game. And not being able to stop james hardin hurt and iman shumpert not in the flow of the offense in the fourth quarter, maybe not all his fault and maybe the knicks are not looking for him as first or second option. I thought he should have seen the ball more in the fourth quarter. Excuse me, your thoughts coming up on the loss, 102- 100. Are you feeling good about it. Or thinking same old knicks. Bonehead play. This one was not as bad as bargnani back in december in milwaukee. That was a situation where the knicks were up by two and missed a shot and chandler gets it out to bargnani, fresh 24 and he is have dribbled out and waited for the foul. This is a wide open good look by jr smith. If he hit the three, no one would rip him to take the shot. And he took it efrl with 17 seconds on the board and that was it. A lot of time left. And they lose it and it is a 102- 100 loss. There is the phone number. 866-Ny1-talk. Your thoughts on this expects loss tonight. They will be in dallas on sunday night to finish out the teixeira trip. Well also take your e-mails at sportson1 ny1.Com i will be looking for your tweets and give me a follow on twitter at sportson1kg. Well talk about the knicks . So the knicks fall to 10 and 2 on the season
