

# DO YOU LOOK BEFORE YOU PUMP?

Do you pay attention to what kind of fuel you put in your lawn mower, string trimmer, chain saw or other outdoor power equipment?

## 2/3 OF AMERICANS

who own outdoor power equipment say they either are not sure or do not pay any attention to what type of fuel they are using.

## DID YOU KNOW?

Gasoline containing greater than 10 percent ethanol (E10) can damage outdoor power equipment and other small engine equipment such as motorcycle, snowmobile and boat engines.

## LOOK BEFORE YOU PUMP

- ✓ Only use gas with 10% ethanol or less.
- ✓ Only use fresh fuel that is less than 30 days old.
- ✓ If the gas you use for your small engines is more than 30 days old, dispose of it properly.
- ✓ Label your gas can with the date you bought your fuel.
